A screenshot of a CAD viewer application window. The window title is "DWG File Viewer - 12345.dwg". The interface includes a menu bar with "Model", "View 1", "Layouts", and "Views". Below the menu bar is a toolbar with icons for zooming, panning, and other navigation functions. The main area displays a 2D architectural drawing of a building complex. The drawing features a central sports field with a basketball court and a soccer field, surrounded by various building footprints, parking lots, and landscaping. The drawing is rendered in a dark theme with green and yellow highlights. The word "ESTACIONAMIENTO" is visible in the parking lot area.

DWG File Viewer is a perfect tool for 2D drawing visualization on your Mac platform. It is the quickest viewer available for the AutoCAD® DXF and DWG file formats which opens files directly on your Mac without the file-size limit of most viewers.
